My dear Dr Rudleton,
Before leaving America I wish to
thank you for the many re-
sults of your work for me.
I am sure I am chiefly indebted
to you for the Kepler Table

Award. I shall always value the
first honorary degree given by
your College. I regret not to
have had more time to see
your very interesting organization.
Please accept this picture as
a souvenir of my visit to you
Sincerely yours

M. Curie.
