Dear our Nation:

Very many thanks for the poem. The "heart" is the best to me. Though I like immensely the words of the good fishes. It is a pity that some men can't live for ever. We've just come through what must have been a very hot wave in Boston we had to sit down & let the thermometer do the work but today is so divine I heart you were up here to enjoy it.

Pray you keep well and happy for we're very fond of you. C. sends her love to you all and I am

Always yours affectionately

Our visitors have just gone. I wouldn't be a hide & pom for all Asia had to offer.
